An unusual Birthday Present

by Alexis Herzog

You always have the choice in life: to grasp an opportunity or to let it go.

I chose to grasp it!

That's how it all started...

At the time that I had to finalise my ICT assignment on web-design, mum suggested to me to prepare a 'real' one for our

friend Trevor. Initially I thought that I would never have time but combining mum's intuitive approach and my IT skills... it turned out to be an amazing process and a great success.

My birthday was only a couple of weeks away. I had no particular wish. I am now in age to get a part time job at the local supermarket but I never felt really attracted to this type of work. After watching the DVD 'The Secret' www.theseecret.tv mum came up with a great b'day idea for me : a domain name and her encouragements

to start my own business.

www.vibrationaldesign.com

was born !

In synergy with mum (*Roseline Deleu*) we design websites, business cards, logos based on people's vibrations and intent.

My website will improve as I deepen my IT knowledge and business skills but since the vibrations are right ... I am happy to say that I get requests and orders daily

Bottled with Love—Life Energy Water—part 1

by Sally Turner

Sally Turner is the Water Woman. Her journey with the water has been one of personal growth, some difficult choices and many joyous moments when people in need find her beautiful water and realise they have found something very precious and nurturing.

Sally is a Natural Therapist who still somehow finds time to treat family and friends in between the 2500km trips to bottle her Life Energy Water at the Source in far south western Queensland.

She was given a 'message' early one morning about five years ago to go out to her Father's and bottle the water because it would raise people's consciousness and vibration. Warm in bed, she rolled over with a 'yeah right!' Again the voice in her head insisted... so she got up and went and told her family, 'Guess what guys, we are going out to Poppy's and we are going to bottle the water because it will help people feel better.' Emma, about seven, looked from one to the other and announced, 'She's lost the plot this time, Dad.'

After doing the feasibility and viability of such a venture and literally throwing the figures in the corner of her office, Sally was ready to agree with her daughter.

A higher power obviously had other ideas!

No matter where Sally went, she was thrown together with people who had the knowledge, contacts, resources to help her create a totally unique processing plant that allows her and her family to bring this water to the city as close to the way nature intended it to be as is possible. She has met so many people, with so much to give and feels honoured that these people want no recognition for their enormous part in her life. One day Sally hopes they will give her permission to acknowledge their contribution. In the meantime she keeps them supplied with Life Energy Water and lashings of love!

About the Water

Five years later (it took two years to sell most of her valuable things to pay for the plant and equipment) Sally and her fam-

ily have had to buy a bigger truck to transport the raw materials and filled pallets and they have four keen distributors who supply Health Food and Organic shops, Therapists and other Health Practitioners and Life Energy Water is spread from Cairns to Tasmania.

She has organic registration with BFA, a division of Australian Certified Organic and the water is about to be the subject of a clinical study by the School of Dentistry at Queensland University.

The water has been enjoyed by world famous models, Lord Mayors, American Admirals, and various other important people, but when Sally hears of children fighting over the last bottle of her beautiful water it almost brings tears to her eyes.

This article is TO BE CONTINUED...

More about the Water (translation of the word *Shui* in Chinese) will be coming up in the next Feng Shui Steps newsletter #12 of December 06.

Zen Chakras

by Lisa Sherrah

There are many ways to bring your body, mind and spirit back into balance. Each person has their own blueprint that creates the world around them, it is also known as a life path. Within your lifetime you will choose which way to master your own life path and on this journey you will be presented with many different options, tools and practices with which to create Harmony and Peace in your life.

How you choose to look at each situation in your life as it presents is up to you, you would have heard of the "Glass half full theory as opposed to the Glass half empty". It really is up to you this is the beauty of this wonderful planet of ours called "Earth", we do have a choice and how we handle ourselves within these choices determines our destiny, karma and lessons.

During my time on this planet I have found two tools that really work well to-

gether one balances you internally and the other the world that surrounds you. These are **Chakra alignments** and **Feng Shui**.

When your body is aligned it causes a chain reaction into all areas of your life. It brings your outer world back into balance, as does the principals of Feng Shui. These two modalities work very well together, they bring divine inner and external balance in your home, and office. When you have a positive outlook and your home and workplace reflect this then it is easy to improve relationships on all levels and bring a complete spiritual healing to your whole life. Like attracts life and the more you balance yourself and your surrounding the more you can create a more positive world for yourself on all levels. So Enjoy life... Align yourself today!!!

I am flying now

by Cassie Slattery

*If there is light in the soul, there will be beauty in the person.
If there is beauty in the person, there will be harmony in the house.
If there is harmony in the house, there will be order in the nation.
If there is order in the nation, there will be peace in the world.*

CHINESE PROVERB

I knew I was in for a wild ride within 1/2 hour of commencing the course. It was certainly not a conventional classroom set-up, with all sorts of mind expanding theories, beliefs, opinions and principles discussed, debated and acknowledged. I have been exposed to alternate thinking since my teens, so I was happy to go with the flow, and having said that I was

flying from the seat of my pants-ALL WEEK!
Our class was small and made up with fantastic women and a dynamo for a teacher. Roseline's energy and stamina was all inspiring to me and she was so generous with her time and knowledge. I learned so much valuable information in the course, that has been integral in

getting my own home in order and has only reinforced my commitment to learning more about this fascinating ancient wisdom. I can't finish without making special mention to Alexis who was so patient and willing to share his Mum for the week that we were there.

The Laws of Attraction

by Truity

Feng Shui your mind with positive thinking that plays a huge part in your ability to draw to you the Right Healthy Relationship.

I am sure you have all heard the statement, "Like Attracts Like." Have you ever thought about that statement? Often people reply to me saying things like this, "Well if that statement is true and like attracts like then why did I bring to me such a terrible relationship?" Then the next thing people get resentful and angry, because what they are thinking in that is that "It's not my fault, I am not bad, so why did bad things happen to me?" So please don't react here, just keep reading.

So I am going to share with you the biggest secret of all, one that took me years to work out! The secret is that there is no point going over and over thinking about what you're thinking that's causing your problems, that's right, no self analysis, no rehashing the past, no self analyzing!

Everything in your world is the direct result of your thinking, what you have been imagining, what you have been afraid of, what you want, what you don't want. What you spend your day thinking about is what you create!

This is where it takes vigilance, effort and energy, if you want to change your life; you have to make changes, you have to refocus your thinking to mani-

fest what you want. From this moment on you are not going to create negative experiences!

From this moment on, how would it be if you could have everything you want! We are talking about constructive thinking where you reframe your perception of life. Constructive thinking which empowers your life, and draws to you positive experiences little by little until you master the simple fact of focusing on happy productive and healthy thoughts!

Reframing your thought process at first will mean you have to pull yourself up and create positive ways to change sentence structure around. As I said in my first article, if you haven't already read my little book "Starting Over," it's packed full of insight about how to change our reality from negative to positive. The eternal truth of life is that like attracts like, look around you at your circumstances, they are the manifestation of the majority of your thoughts! So its time to take control, and in your mind begin by creating the energy of what you want your life to be.

Things to avoid and things to cultivate.

● Don't criticize – decide to not have an opinion on things or people that will

take your energy down.

- Don't be critical of yourself, if there is something about yourself you don't like then begin making tiny steps to change that.
- Don't talk in negative terms – make a decision to look for the positive in everything
- Don't dwell on the past – let it go its finished its done and its over
- Allow you're self to imagine – day dream – create a visualization of you living your life how you want to be.
- Give up the competitive edge – in the universe there is more than enough for everyone!
- Focus upon what you can do – what you can achieve – what you like
- Wear your favorite perfume or cologne
- Wear your favorite clothes – give yourself permission to feel good!

Make that little bit of effort put a smile on your face and a sparkle in your eyes Remember the energy you emanate from your thinking will draw to it more of the same.

So my friends that's enough for you to think about for this article.

Many Blessings TRUITY - Published author of 'Book of Choices', Spiritual Consultant & Mentor.

Softly Speaking

by Kaleena Bosanquet

I was honoured to have been one of the latest students to Roseline's 5 day intensive practitioner course. This was all meant to be as I had been searching for Roseline's card for some time, yet never to be found. Until one day a voice entered my head to check the internet. So I followed my intuitive side and *Voila!*

There was the site for feng shui steps and a course about to start. I couldn't have asked for more. I thought if this is meant to be then there will be a spot for me. Not only that if I was granted leave from my existing job, then it would truly be a sign. Well it was meant to be and everything fell into place. So off I went to discover the powers of Feng Shui and the many talents of Roseline Deleu.

I have to say what an amazing journey I have had. Not only have I met an amazing, gifted, talented teacher and friend, but I also met other incredibly beautiful people, who all had a special gift to offer the course... friendship. Their insights and learning all aided us in some way or

another, helping us to grow and to flourish. WE were all ready for our new journey ahead. And boy hasn't the beginning of my journey been interesting.

It starts like this...

As part of the course I was lucky to have had our group of wonderful people, come and help Feng Shui my house. Little did they know they really had their work cut out for them. Trees were pruned, pathways made, furniture moved and many flowing ideas followed. I have a list of still to do's. The energy had already started to shift days before, as my son intuitively tuned into this course and had started moving things and de-cluttering. We both couldn't work out why we both had runny noses, sore throats yet no symptoms of feeling sick— Chi was shifting. During the course my right foot had decided to peel top and bottom. No it was not fungal related... just Feng shui. Once the majority furniture had been moved and the energy started to flow, our symptoms

eased.

It has been 3 weeks since I completed the course and began my new journey. I have experienced many profound things occur. My job has increased with new clients popping out of the wood work. My money has increased, with a little win on lotto to boot, **my son Jacob and I are finally seeing eye to eye with out any raised voices**, and well if this counts the power of Feng Shui has de-cluttered a relationship between my partner and I. I think it's called out with the old and in with the new.

So thankyou Roseline, for your time, your wealth of knowledge and for giving me the chance of experiencing and putting into practice the many facets of Feng Shui. You truly are a beautiful soul, who has an amazing gift that you choose to share with us all and for this I thankyou immensely.

A Danger from the Ground

by Steven Guth

Many locations in Canberra have dangerous emanations from the ground.

People vary in their sensitivity to natural radiations. For the sensitive physical and emotional stresses are sometimes caused by unhealthy earth energies. Aches and pains, headaches, depression, disturbed sleep and even severe illness can result from long term exposures.

Building Biology ... are chemicals or electricity health problems in your house?
Geomancy ... the study of earth emanations and their effect on people.

Feng Shui ... how the location, positioning and shape of building and objects interact with people.

Cures and adjustments often help resolve Geomantic and Feng Shui problems. Pegging energy lines can help. Knowing which part of your house to avoid, where to place your bed, where to sit and stand can all help improve your health and well being.

Steven will visit your house, check out your location and help you see and understand the major issues that are in your ever present but unseen environment.

Steven Guth has been practising and writing about Dowsing, Geomancy and Feng Shui for 20 years. Occasionally he teaches or lectures at conferences. He will be **guest speaker @ the Feng Shui Conference Sun 22 Oct 06 in Canberra.**

Steven's most recent article was published in the summer issue of New Dawn magazine. http://www.kheper.net/ecognosis/essays/Canberra_its_Geomantic_realities.html
Houses and personal needs always vary. So Steven's fees and costs are by negotiation. Call (02) 6288 1070
